

QUESTIONNAIRE

COMMUNICATION ON PROGRESS

(Effective 2024)

Document version: February 2024

United Nations
Global Compact

Beginning in 2023, the Communication on Progress requires participants to annually a) submit an electronic statement by the Chief Executive Officer expressing continued support for the UN Global Compact, and b) complete the Communication on Progress questionnaire. This reference document contains the questions presented in the questionnaire.

Overall, the questionnaire is designed to add value to participants in several ways:

- Measure and demonstrate progress to stakeholders and the public on the Ten Principles and the Sustainable Development Goals in a consistent and harmonized way;
- Build credibility and brand value by showing their commitment to corporate sustainability, the Ten Principles, and the Sustainable Development Goals;
- Receive insights, learn, and continuously improve sustainability performance by helping to identify gaps and inform goal-setting year over year; and
- Compare progress against peers through access to one of the largest sources of free, public, and comparable corporate sustainability data.

The questionnaire is structured in five sections. The first section, Governance, provides a cross-cutting overview of the companies' sustainability governance structure. The remaining four sections, Human Rights, Labour, Environment, and Anti-Corruption, survey companies about their performance with respect to the Ten Principles of the UN Global Compact. Within each section, companies will answer questions that address processes and policies that demonstrate their commitment to progress, efforts taken to prevent negative social and environmental impact, performance indicators, and remediation and reporting mechanisms to address grievances and reflect on lessons learned.

Notably, the Human Rights and Environment sections contain additional nuance. The Human Rights section provides companies with the opportunity to select their material topics for disclosure, while the Environment section includes additional topic-specific questions, for example on water and biodiversity, that are to be answered only by business participants who consider such topics to be material. This document contains all questions and possible answer options; not all companies will answer all questions when using the digital platform.

Please note that this questionnaire may be subject to minor edits. Please refer to the digital platform for the final version. Please refer to the *Communication on Progress Guidebook* for additional guidance including question rationale and calculation methodology.
